

Quick Start iT1air

- 1** Install the antenna at the back, connect the iT1air to an outlet and press the Power key (1st button).
Wait 10 seconds for the initialization to be complete.
- 2** Unlock your iPhone or iPad, and make sure it's connected to the correct Wi-Fi network.
- 3** Connect your device to the dock (top) or USB (back), then select the input using the key by pressing the 5th key. The right LED should be red if you are connected to the dock and green if you are connected to USB.
- 4** Press once the Wifi key (last button) on the main unit. Your iDevice displays a message asking if you want to join the network. Accept and wait 10 seconds. The left LED should be constant blue (no longer flashing). The iT1air is now available in the network and you can disconnect your iDevice from the main unit.
- 5** In your music software (Apple Music, Vox, Spotify, Deezer, etc.) click on the "Airplay" icon (opposite) and in the list of available iDevices, choose "MTX iT1air".
