Three mounting options

Connections

Dimensions

With any amplifier in any vehicle... The MTX AWBTC is a universal Bluetooth receiver and remote control designed to work with all Bluetooth devices, including iPhones, iPads, and Android devices, smartphones, and tablets. It's easy to install and use. Everything is built into the remote control. It turns your mobile device (Bluetooth-compatible) into the source for your audio system. Designed to be mounted on a wide variety of vehicles, it is compatible with most amplifiers. We designed it for use on motorcycles, boats, cars, trucks, and recreational vehicles...

Ideal for use in boats, cars, trucks, motorcycles, or recreational vehicles

Simplified Bluetooth connection with automatic reconnection

IP65-certified waterproofing

12V power supply

Replaces the head-unit and connects to any amplifier

Wiring and various mounting parts included

Works with any type of Bluetooth device (tablets, computers, or phones)

Three mounting options (surface-mount, flush-mount, bar-mount)
