

RTT12P

Vented powered tube enclosure with 12" (30cm) subwoofer and 220W RMS CEA class-D amp

The simplest and most effective way to turn your car into a disco...

No complex settings (Only Gain), so it is always playing at the top...

High-efficiency Class-D amplifier produces more power with less current (Very interesting in a car...)

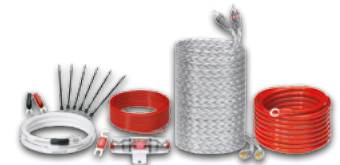

Crazy simple to install...

EBC remote control you can play with from the front...

Fast and musical sub bass

Works perfectly with an original OEM head-unit, or more ...

Complementary products

ZNX8K, ZNX10K
