

TRT8P

Vented powered tube enclosure with 8" (20cm) subwoofer and 140W RMS CEA class-D amp

The best and most simple way to add good bass in your system

No complex settings (Only Gain), so it is always playing at the top...

High-efficiency Class-D amplifier produces more power with less current (Very interesting in a car)

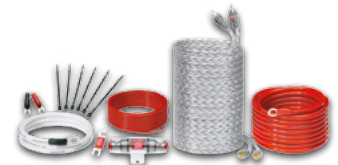

Crazy simple to install...

EBC remote control you can play with from the front...

Fast and musical sub bass

Works perfectly with an original OEM head-unit, or more ...

Complementary products

ZNX6K, ZNX8K, ZNX10K
