

WET65

WET Coaxial Speakers Ø16,5cm 6.5" 2-way 65W RMS 4Ω with dual waterproof spider and Teteron neodymium tweeter

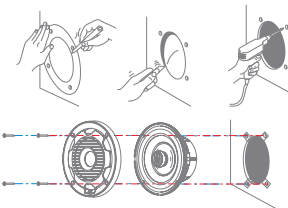

The Ø16.5cm MTX WET65 marine speakers are resistant to water, salt and UV. They meet the requirements of the marine environment. Their power handling and the quality of their components allow them to perfectly sound a boat. Their diameter allows them a good reproduction of the bass. They are the ideal companions for the WET75.4 amplifier.

WET75.4

Specifications

- 2-way coaxial speakers
- Diameter: 16.5cm 6.5"
- RMS power: 65W
- Peak power: 130W
- Impedance: 4Ω
- Frequency response: 60Hz - 20000Hz
- Installation depth: 73.2mm
- Grid diameter: 145mm
