### Included Accessories

Remote Control

MicroSD to USB adaptor

Hi-Fi stereo sound thanks to 4 high-quality speakers plus an efficient and powerful amplifier.

4 speakers including 2 subwoofers for a realistic stereo and bass sound reproduction.

Exceptional output power : 2x15W RMS for deep bass and breathtaking dynamic.

The 2 side subwoofers expand the sound stage thanks to their position.

3 inputs : Bluetooth, microSD and AUX for a wide compatibility.

IR remote control for easy and pleasant sound management.

Variable bass level adjustable from 0 to +10dB from the remote control.

Bluetooth input with auto-detection : no need to connect each time.

MicroSD playback : Just push play to enjoy your favorite songs stored on the microSD card. You don't need any BT connexion.

MicroSD playback : No wave, no sound drops, no power consumption of the cell phone battery.

MicroSD playback : Compatible with Flac (For maximum songs quality) and mp3 tracks (For maximum number of tracks).

MicroSD playback : Alphabetical or random playback available from the remote control.

Fast charging thanks to the powerful power supply. You can also change your cell phone or your tablet thanks to the USB port.

Power Bank to recharge a cell phone or a tablet even when there is no power outlet around.

All-aluminum construction : it is durable, robust, high-end and recyclable.
