

MTX[®] AUDIO

iT1air

High-End HiFi compact system
with Apple Lightning dock,
Aiplay, DLNA and Apple USB

Ultimate... This is the best word to describe our dream docking station. We made everything perfect to match the highest requirements... We made it the way we wanted to find it in a store. High-end durable 5mm thick aluminum construction, 18mm MDF enclosure inside for a perfect sound quality, six speakers, two subwoofers, six full digital class-D amplifiers, six DSP (only for x-over, levels and phase), all the possible inputs, the most complete wireless communication card, these are only some of the incredible iT1air features.

You can stream Airplay, DLNA, AllShare. You just have to push a button to join your wireless network! We used the large aluminum body as a heat-sink. You can pump up the volume all night long without worrying about the cooling; at full power, the unit becomes just a little warm.

But the best feature is by far the sound quality. You'll be amazed by the wide staging (Thanks to the two woofers located on the sides), the transparency, the level of detail, the musicality and the incredible power handling that allows you to make a party in a 30m2 room...

No other company spent that much time and energy for a docking station... Enjoy!

Features :

- Unmatched low frequency response (58Hz @0dB - crazy)
- High end neodymium midranges with paper cones
- High end extra large woofer voice coils (Ø32mm)
- Extra large woofer magnet structure
- High end 20mm silk dome tweeters
- Extra long and sophisticated noiseless aeroport vent
- 5mm thick aluminum construction
- Aluminum brushed anodized finish
- 5mm thick aluminum cabinet
- 18mm MDF enclosure inside
- Aluminum IR remote control
- Backlighted controls on the unit and on the remote

Specifications :

- Number of speakers : 6
- Speakers dimensions : Woofers 2x13cm, Mids 2x7cm, Tweeters 2x20mm
- Number of channels : 6
- Total power : 180Wrms (2x50Wrms on woofers, 2x25Wrms on mids, 2x15Wrms for tweeters)
- Number of DSP : 6
- Inputs :
 - Dock : Apple Lightning dock
 - USB : Apple compatible
- Streaming :
 - Apple Airplay, DLNA, AllShare
 - Aux : 3,5mm jack
- Power supply : 100~250V 50~60Hz
- Total weight : 10Kg
- Dimensions : 53x15x15cm
